Subject: Re: Info on UIC Wells

Hi James - Sorry for not getting back to you sooner. Here are the links I was thinking you could share with the Seneca Nation. I looked around for additional info we may have in the Region that we could share but didn't come up with much. I'm hoping even this public info on EPA's websites will help get the Nation get oriented though.

<https://www.epa.gov/uic> - EPA's website on the UIC Program.

These links are available via others listed here, but I thought given the focus different types, or classes, of wells I'd point these out:

<https://www.epa.gov/uic/underground-injection-control-well-classes> - Info on different types of UIC wells

<https://www.epa.gov/uic/class-ii-oil-and-gas-related-injection-wells> - Info on Class II UIC Wells

<https://www.epa.gov/uic/underground-injection-control-regulations-and-safe-drinking-water-act-provisions> - Info on where to find and read the federal SDWA regulations pertaining to UIC.

<https://www.epa.gov/uic/uic-program-guidance> - This site lists technical memorandums, manuals, and guidance documents developed by the UIC program to inform decision-making, clarify issues and questions, and guide UIC program implementation consistent with the requirements of the Safe Drinking Water Act and the federal UIC regulations.

<https://www.epa.gov/uic/uic-program-guidance-clarifying-memorandums> - The guidance documents and memorandums developed by the UIC program to inform decision-making, clarify issues and questions, and guide UIC program implementation consistent with the requirements of the Safe Drinking Water Act and the federal UIC regulations.

Thanks and good luck!

Subject: Info on UIC Wells

Let me know if I can help compile online UIC info (I'm thinking from EPA's websites) to share with the SNI. I'm thinking even descriptions of the different types of wells etc. will be helpful?

Thanks,

Christine Ash
